Circular  
IC1006  
(Supersedes  
IC927)

HOUSE PLAN SERVICES

The National Bureau of Standards does not issue house plans, but has compiled the following list of sources from which house plan booklets, stock plans for houses, floor plans, or suggestions for small house design may be obtained. Architects everywhere, of course, prepare plans for individual needs and many retail lumber dealers maintain house plan service departments. House plans, particularly for farm houses, are also available from some state colleges. Floor plans, descriptions, and illustrations published by leading newspapers, architectural, building, and home magazines may be consulted in large libraries.
